CAREER OBJECTIVE

Motivated and detail-oriented AI and Machine Learning enthusiast with strong expertise in developing AI-powered applications and full-stack solutions. Passionate about leveraging advanced technologies to solve real-world problems and deliver scalable, efficient, and impactful systems. Seeking an opportunity to contribute technical skills, innovation, and continuous learning to a dynamic organization.

EXPERIENCE

Hackathon Participant & Freelancer
Student Developer · Online, Burla, India

Participated in multiple hackathons and freelance AI/ML projects, developing end-to-end intelligent solutions using Python, PHP, and modern web technologies. Selected as a semifinalist in the AWS ₹10,000 AI Idea Hackathon with the CareLoop+ project (ongoing). Also contributed AI-driven solution ideas as part of the Google Solution Challenge,Hackerearth and other campus programs.

EDUCATION

B.Tech – Computer Science (AI & ML Specialization)
Veer Surendra Sai University of Technology (VSSUT)
Burla, Odisha · Expected July 2028

PROJECTS

- **Careloop+ - Bridging the Gap in Post-Treatment Recovery**
  📱 Patient App (Flutter): An elderly-friendly Mobile/Web interface for effortless daily vitals and medication tracking. 📊 Clinical Dashboard (PHP): A high-performance, real-time triage screen for doctors. ☁️ Intelligent Backend (FastAPI + AWS): A HIPAA-ready cloud hub autonomously analyzing health anomalies via GenAI.
- **AI-Powered Detection of Online Harm**
  Developed a platform for detecting harmful online content using AI models Google APIs,
- **Odia rag Chatbot**
  Built using Gemini, LangChain, LangGraph, Redis, and FastAPI, enabling context-aware responses from domain-specific data.
- **Other ML Projects**
  Implemented multiple models in classification, prediction, and recommendation systems.
